Subject: June 7th Alt Screen Scoping Meeting
Date: 05/26/2010 12:58 PM

Chip,
Sorry if this is a repeat email from one I sent earlier today, but I got an error message re delivery so I'm sending it again.

I left you a voice mail earlier this morning about the upcoming June 7 Alt Screen scoping meeting. It is our understanding and expectation that this will be a Management Team meeting with input from a few key consultants (e.g., Carl and Keith for LWG). We do not see a benefit to opening this meeting to a more broad list of attendees (I.e., full list of tech folks). Is that your expectation as well? Thanks, Jim.
